Referral Tips

E-prescribe referrals

AllianceRx Walgreens Prime is helping to make prescribing easier and more efficient. E-prescribing can reduce the wait between the time a prescription is written and when the patient actually receives the medication. It also can effectively reduce the number of prescription errors attributable to hard-to-read handwriting or illegible faxes.

Easy referrals

To find AllianceRx Walgreens Prime in your ERx system, please try the following:

1. Search by phone or NCPDP number
2. If you are unable to locate us, you can:
   • Still reach us by calling 855-244-2555
   • Ask your system administrator to refresh the ERx system
3. Once you find AllianceRx Walgreens Prime in your system, add us to your favorites

See reverse for information on faxed referrals.
Fax referrals

Fill out the referral form with patient information, clinical assessment and medication details. Fax the referral to the number below.

**Address**
AllianceRx Walgreens Prime
9775 SW Gemini Drive
Suite 1
Beaverton, OR 97008

**Phone #**
866-202-4014

**Fax #**
866-579-4546

**Helpful tips to hasten the process**

**REMEMBER** to include the true date by which the patient needs the medication in hand.

**DO NOT** write “urgent” or “stat,” as neither is an applicable date, and entering either will cause delays in your patient receiving medication.

**REMEMBER** to fill out the ICD-10 code carefully, as many pharma programs require it, as well as diagnosis, in order to ensure that a patient will be eligible to apply for assistance.

**REMEMBER** to include the patient’s current weight, as it may impact medication dosing.

Fax the completed referral form along with the following documentation:

- Copy of each side of the patient’s insurance card
- Copies of clinical information for patient, including lab values
- Chart notes from the patient’s last two visits

Image above only captures part of the referral form. For the full form, as well as for disease- and drug-specific forms, please visit alliancerxwp.com/hcp.
